Carlos F. Daganzo, doctor *honoris causa*

Barcelona, 28 de març de 2012

Carlos F. Daganzo, doctor *honoris causa*

Barcelona, 28 de març de 2012

**DEMANDA**

**FFCC**

**LOGÍSTICA**

**PORTS**

**TRÀNSIT**

**AEROPORTS**

**TR. PÚBLIC**

**TARIFACIÓ**

**SCM**

**MOBILITAT**

## DEMANDA

$$U = V + \xi$$

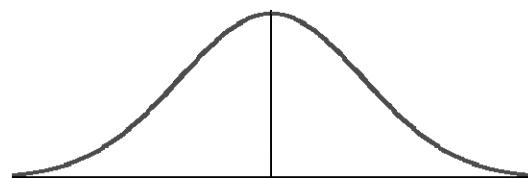

U. Percebuda (aleatori)      U. Mesurable (determinista)      Error (aleatori)

**Models *probit* en teoria d'utilitat aleatòria**

(per a cada mode de transport i una relació origen-destinació determinades)

**Distribució de  $\xi$  ? Ha de ser simple i ha de tenir sentit:**

$\xi \sim \text{NORMAL} \rightarrow \text{Probit (té sentit)}$

**Carlos Daganzo (1979)**

$\xi \sim \text{GUMBEL} \rightarrow \text{Logit (és simple)}$

**Daniel McFadden (1975)**  
*Premi Nobel d'Economia, 2000*

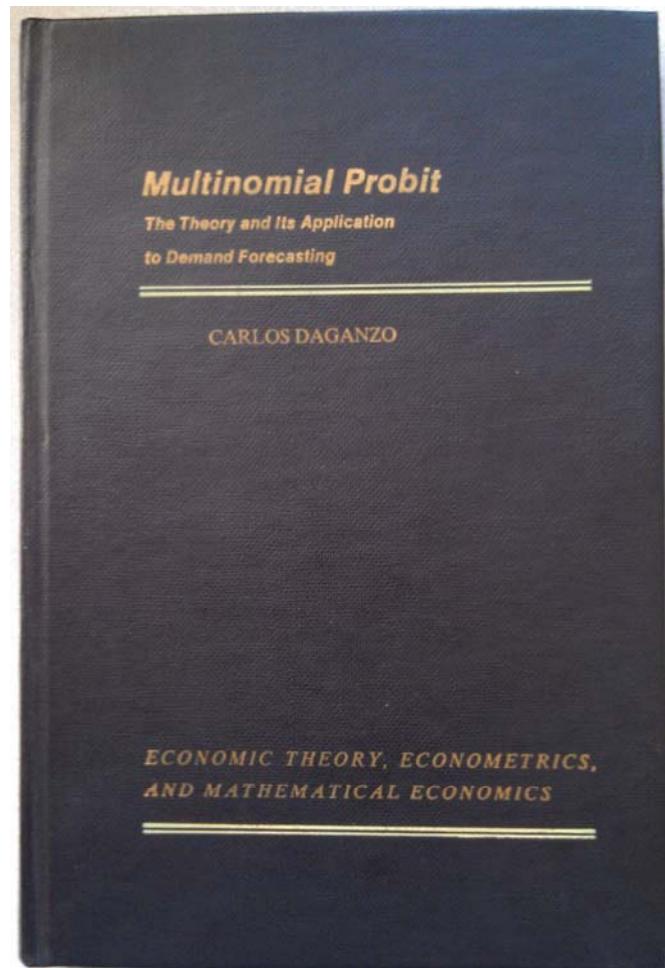

## DEMANDA

Software de calibració de models de demanda:

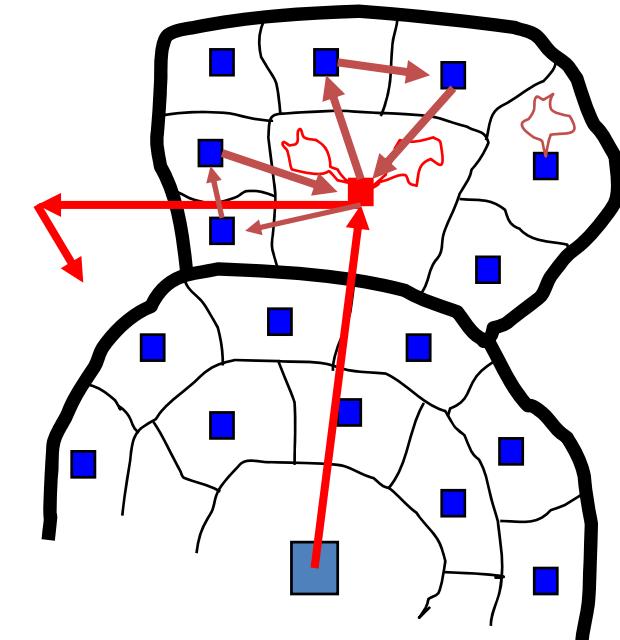

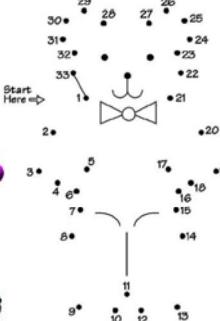

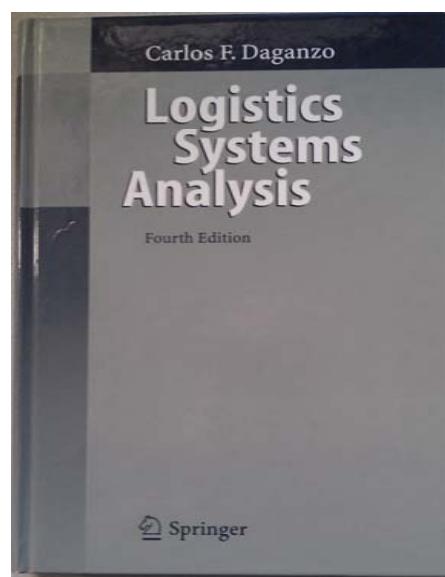

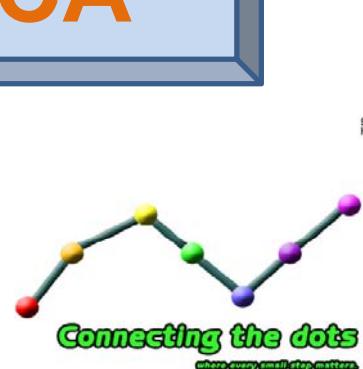

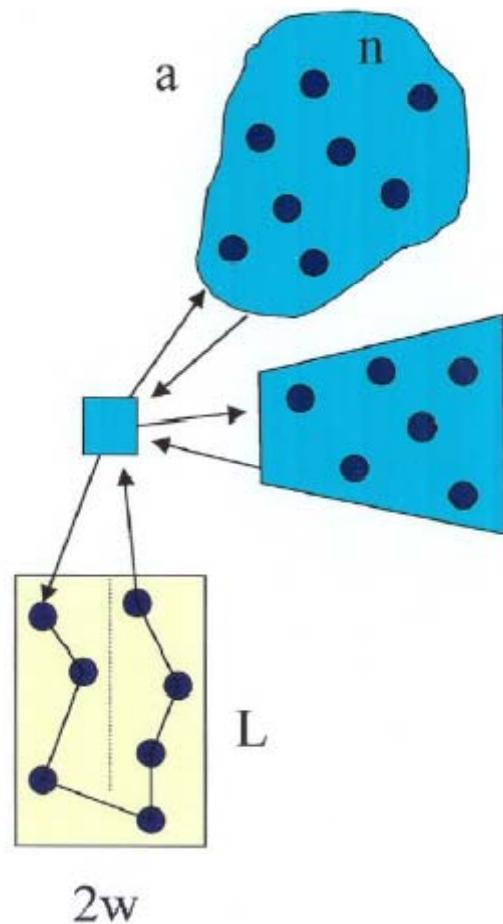

- CHOMP
- TROMP

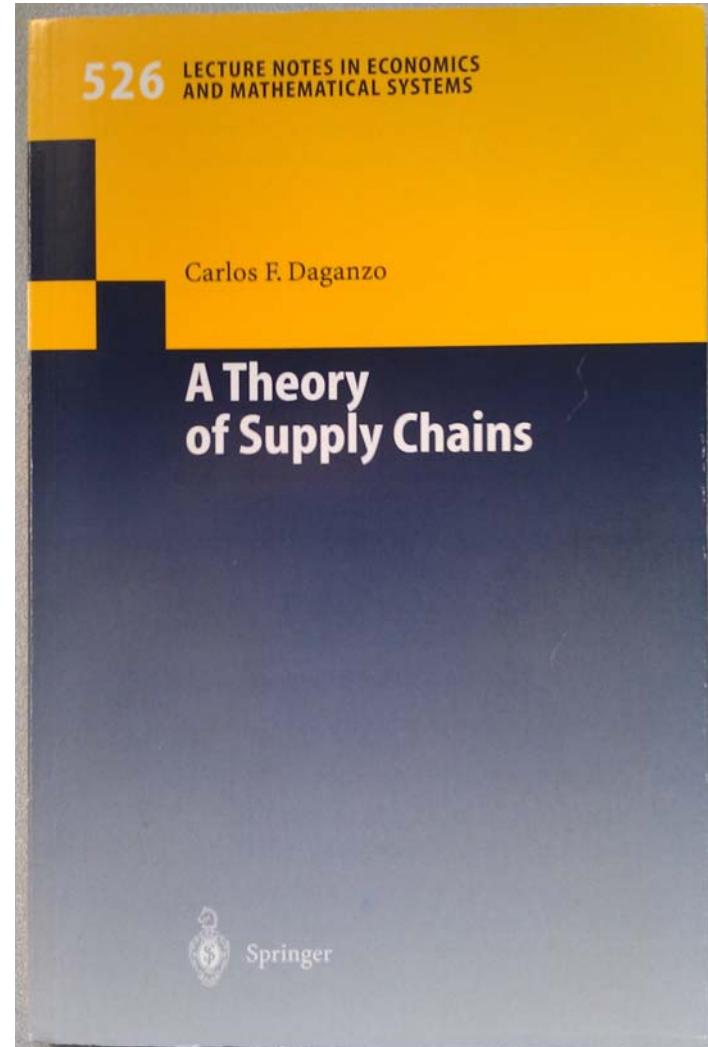

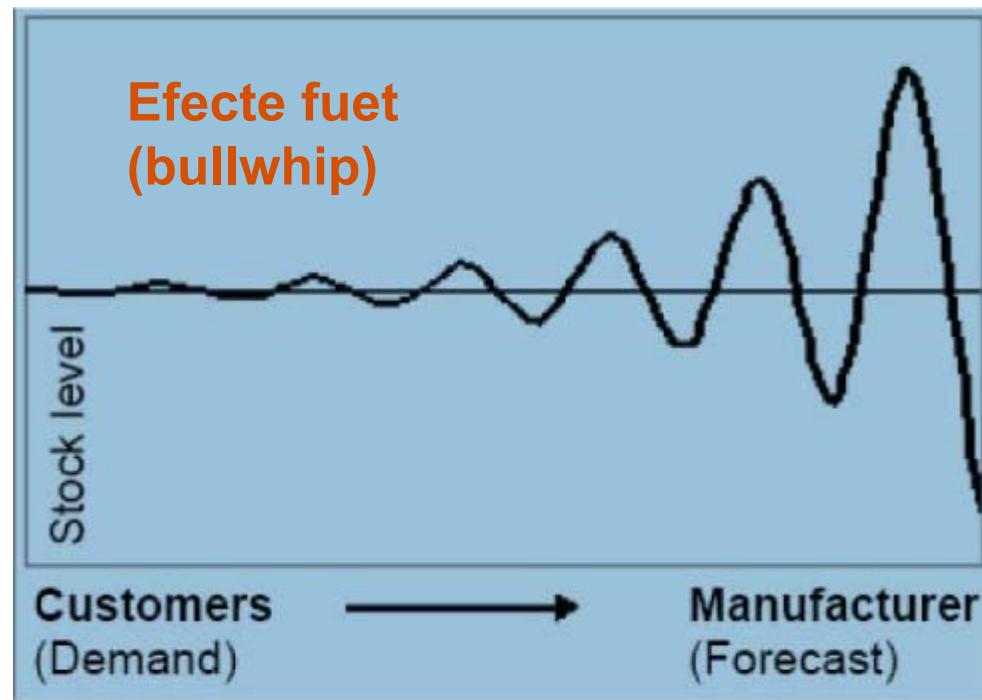

-Software d'assignació de trànsit en xarxes amb capacitat finita:

- PEANUT

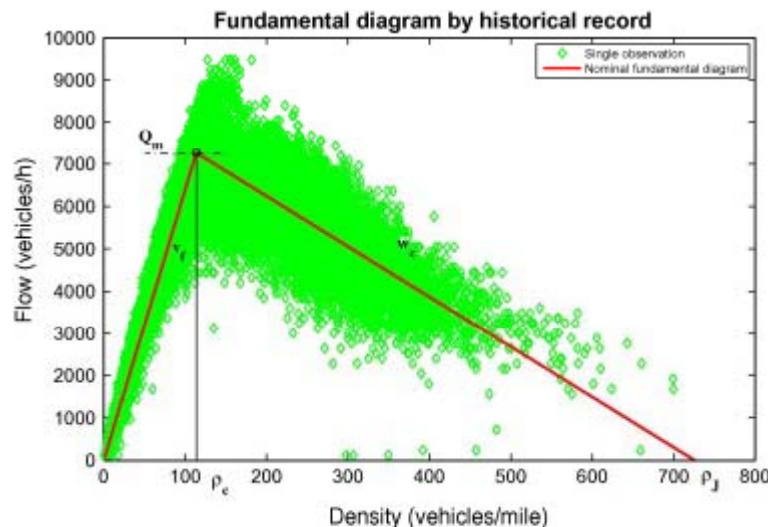

## LOGÍSTICA

## TRÀNSIT

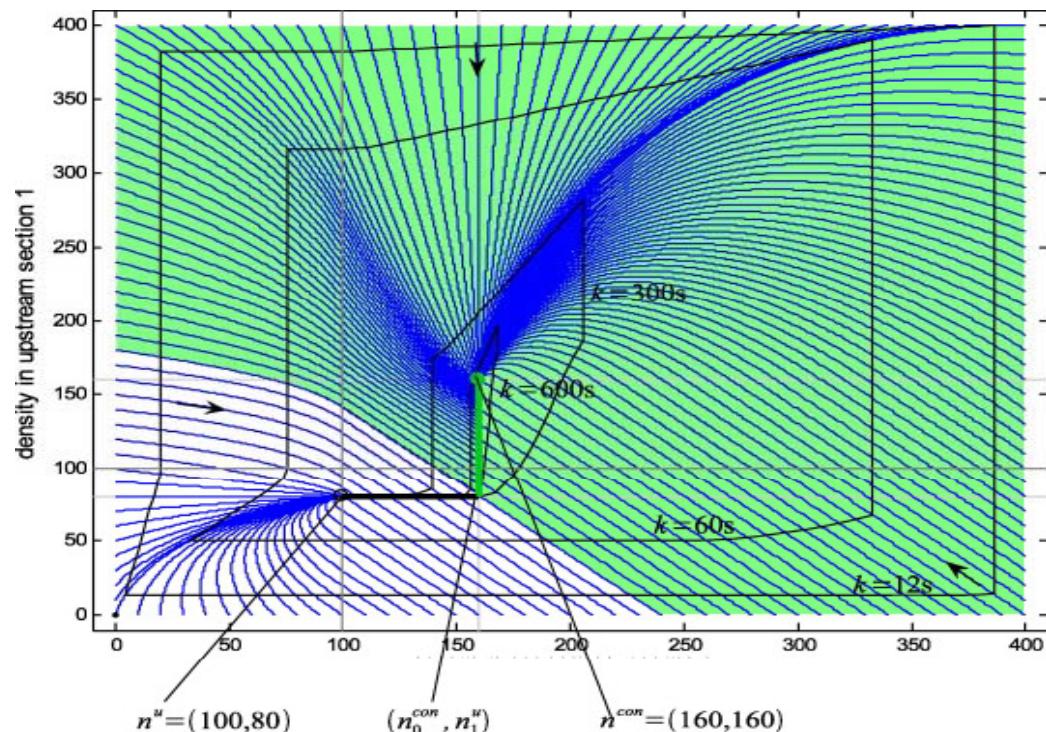

**Colls d'ampolla mòbils**

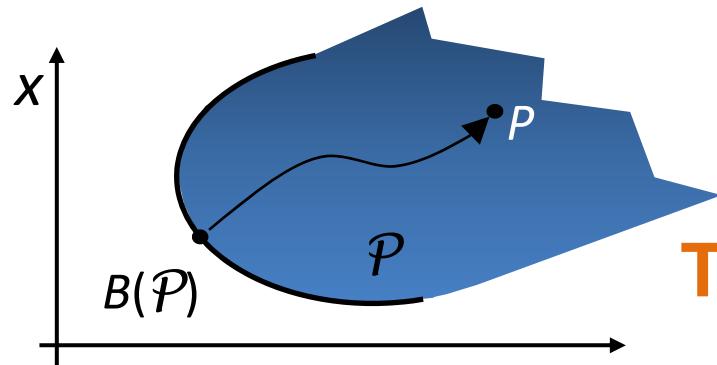

Mecànica de fluids: **R.I.P.**

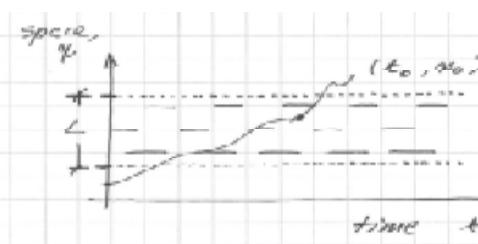

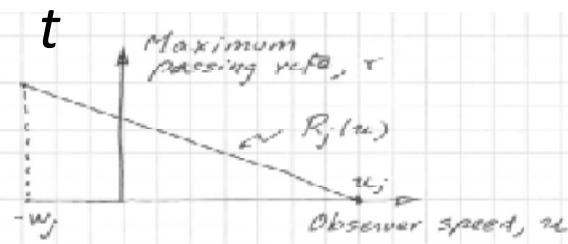

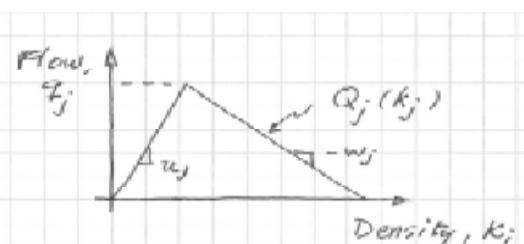

Models de transmissió de cel·les: CTM

## TRÀNSIT

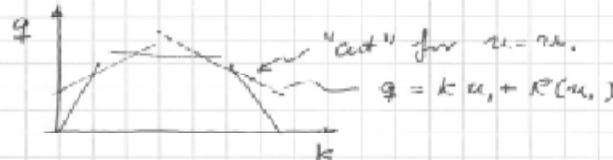

### Teoria variacional del trànsit (VT)

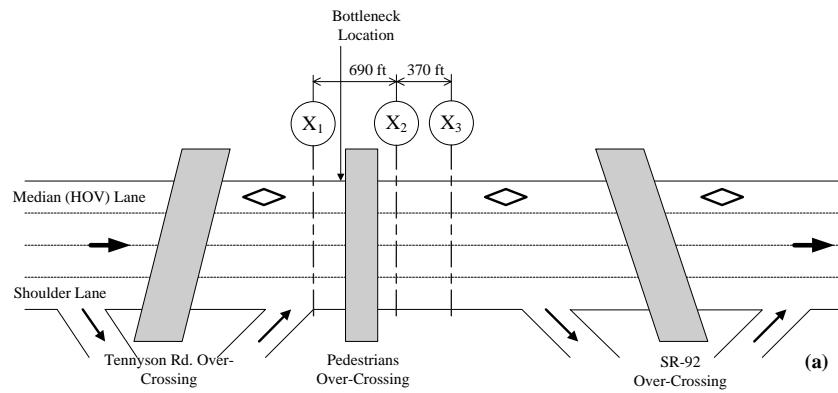

Note: Ring road problem is well posed.  $R(u|t_0, x_0)$  exists.

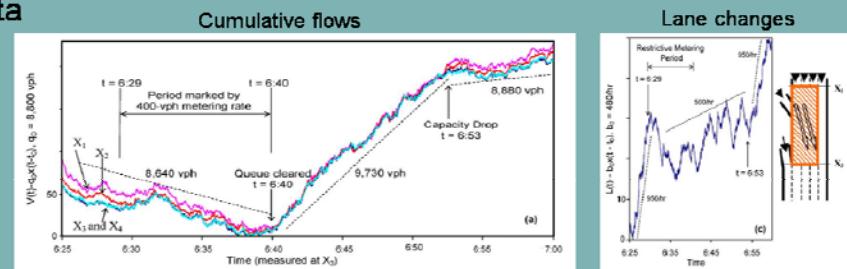

Note: Ring road problem exhibits a macroscopic CF,  $R(u) = \lim_{t_0 \rightarrow -\infty} R(u|t_0, x_0)$  (independent of  $x_0$  as  $t_0 \rightarrow -\infty$ ), (convex)

Note: The MFD of the ring road is LE of:  $q = k u + R(u)$

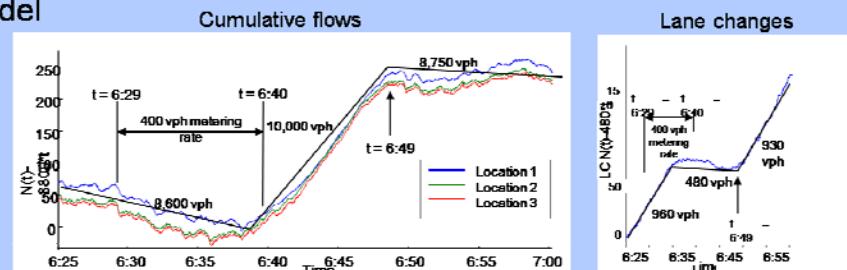

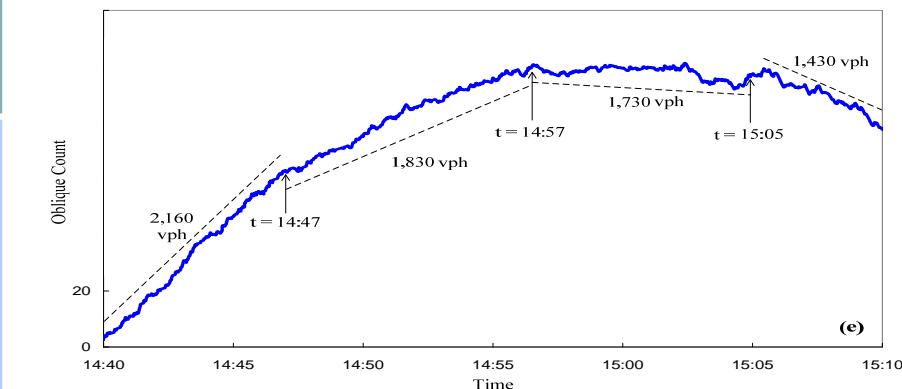

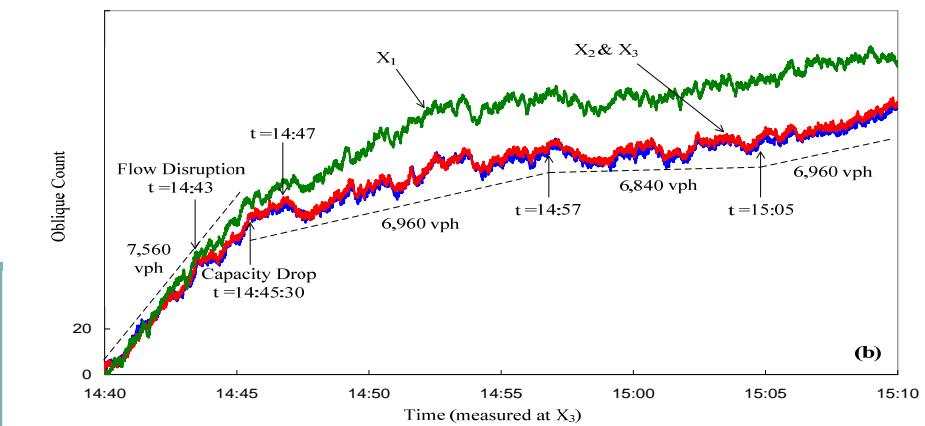

## Data

## Model

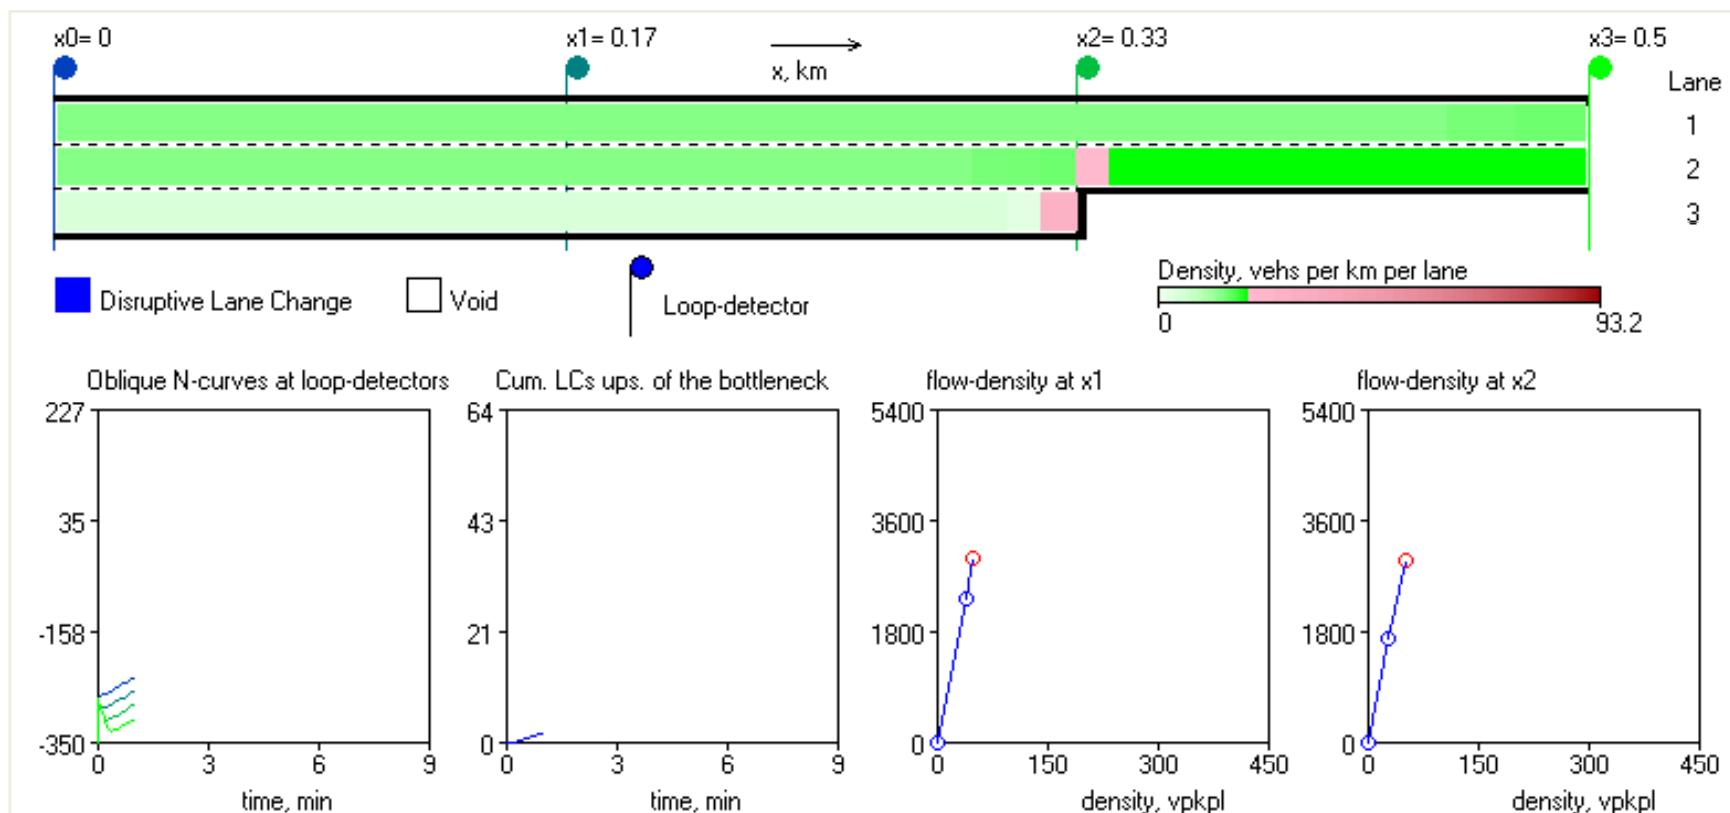

# TRÀNSIT

## TRÀNSIT

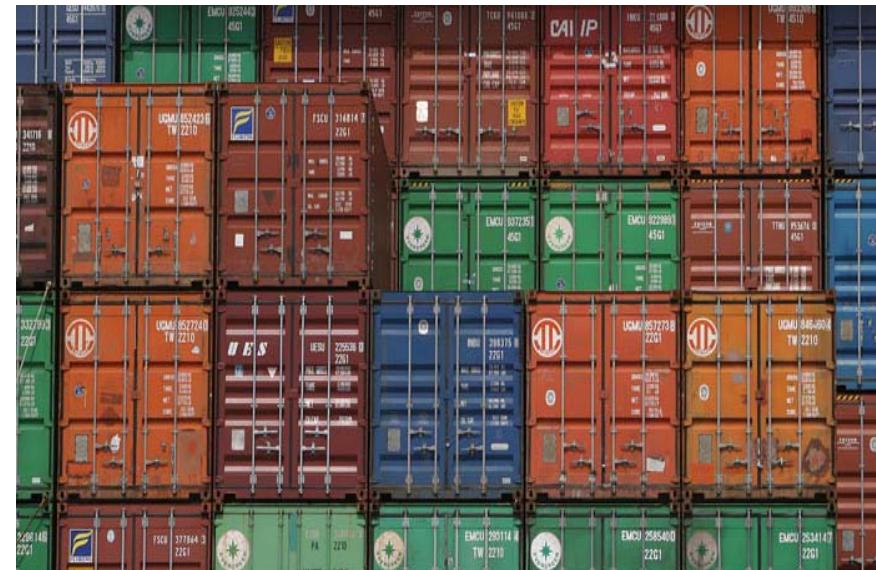

Coll d'ampolla format per una reducció de # de carrils

# Graduate Student Faculty Mentor Award, 2008

### **Carlos Daganzo (left)**

**“work hard, be smart”**

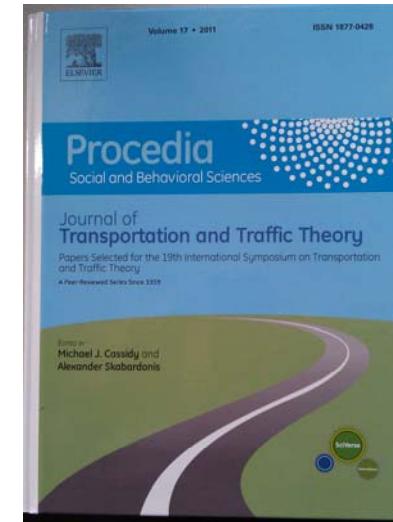

# ***“this is trivial”***

FMA winner Carlos Daganzo (left) told one of his students "the secret of becoming very well known and successful: work extremely hard all the time and use the maximum of your intelligence at the same time, all the time, when you are working, eating, walking, and so on. Anyone who does that will be very successful." The student nominated him anyway.

Carlos F. Daganzo, doctor *honoris causa*
